The following were the changes in the composition of the Board of Directors of the Bank (the "Board") since 31 March 2021.

On 31 July 2021, Sunil Kumar Srivastava resigned as non executive Director of the Board. Jakkalah Lalam was appointed as new non executive Director of the Board on 12 October 2021. On 30 May 2022, Kavita Singh resigned as non executive Director of the Board. Raveesh Kumar was appointed as the new non executive Director of the Board on 30 May 2022.

**Conflict of Interest:**

The Board has a procedure to ensure that conflicts of interest between the Director's duty to the Bank and their personal, professional or business interests are avoided or dealt with.

Each Director must make full disclosure to the Board of any direct or indirect interest in a matter relating to the interest of the Bank as soon as practicable where the matter will be discussed in the Board meeting, in which the Board's practice is to manage any conflict of interest on a case-by-case basis, depending on the circumstances.

**Interested transactions:**

There have been no transactions entered into by any Director, or any immediate relative or close business associate of any Director, with the Bank, or any member of the Banking group:

- (a) on terms other than on those which would, in the ordinary course of business of the bank or any member of the banking group, be given to any other person of like circumstances or means; or
- (b) which would otherwise be reasonably likely to influence materially the exercise of that Director's duties.

**4.4 Audit Committee**

The Bank has an Audit Committee. The members of the Audit Committee as at the date of this Disclosure Statement are:

- (a) Nuran Subramanian Venkatachalam (Chairperson), Independent Director.
- (b) Raveesh Kumar (Member), Non-Executive Director.
- (c) Vijay Kumar Goel (Member), Independent Director.

The Audit Committee is responsible for the oversight of financial reporting disclosures and other regulatory and statistical compliance.

**5. Auditor**

## 6. Conditions of registration

---

Effective 29 April 2021, the Reserve Bank of New Zealand (RBNZ) Issued revised conditions of registration for the bank regarding dividend payments from the bank.

Effective 1 July 2021, the Reserve Bank of New Zealand (RBNZ) issued new conditions of registration for the bank. The amendment to the conditions of registration was with regard to tier 2 capital.

Effective 1 October 2021, the Reserve Bank of New Zealand (RBNZ) further Issued revised conditions of registration for the bank. The conditions of registration have been amended to incorporate Banking Prudential Regulations (BPRs) and LVR restrictions.

Effective 1 January 2022, the RBNZ Issued changes related to Reserve Bank's liquidity policy (BS1) and loan to value restrictions.

Effective 1 July 2022, RBNZ Issued changes related to the removal of Covid-19 dividend restrictions and typographical corrections within BS13A (Liquid Assets Annex).

The registration of Bank of Baroda (New Zealand) Limited ("the bank") as a registered bank as on 31 March 2022 is subject to the following conditions:

1. That—
  - (a) the Total capital ratio of the banking group is not less than 8%;
  - (b) the Tier 1 capital ratio of the banking group is not less than 6%;
  - (c) the Common Equity Tier 1 capital ratio of the banking group is not less than 4.5%;
  - (d) the Total capital of the banking group is not less than \$30 million.

For the purposes of this condition of registration, —

"Total capital ratio", "Tier 1 capital ratio", and "Common Equity Tier 1 capital ratio" have the same meaning as in Subpart B2 of BPR100: Capital Adequacy;

"Total capital" has the same meaning as in BPR110: Capital Definitions.

- 1A. That—
  - (a) the bank has an internal capital adequacy assessment process ("ICAAP") that accords with the requirements set out in Part D of BPR100: Capital Adequacy;
  - (b) under its ICAAP the bank identifies and measures its "other material risks" defined in Part D of BPR100: Capital Adequacy; and
  - (c) the bank determines an internal capital allocation for each identified and measured "other material risk".

1B. That, if the Prudential Capital Buffer (PCB) ratio of the banking group is 2.5% or less, the bank must—

- (a) according to the following table, limit the aggregate distributions of the bank's earnings, other than discretionary payments payable to holders of Additional Tier 1 capital instruments, to the percentage limit on distributions that corresponds to the banking group's PCB ratio; and

Banking group's PCB ratio	Percentage limit on distributions of the bank's earnings	Capital Buffer Response Framework stage
0% – 0.5%	0%	Stage 3
>0.5 – 1%	30%	Stage 2
>1 – 2%	50%	Stage 1
>2 – 2.5%	50%	None

(b) comply with the Capital Buffer Response Framework requirements as set out in Part D of BPR120: Capital Adequacy Process Requirements.

For the purposes of this condition of registration,—

"prudential capital buffer ratio", "distributions", and "earnings" have the same meaning as in Subpart B2 of BPR100: Capital Adequacy;

an Additional Tier 1 capital instrument is an instrument that meets the requirements of B2.2(2)(a), (c) or (d) of BPR110: Capital Definitions.

1BA. That the bank must not make any distribution on a transitional AT1 capital instrument on or after the date on which on any conversion or write-off provision in the terms and conditions of the instrument is triggered due to either a loss absorption trigger event or a non-viability trigger event.

For the purposes of this condition of registration, "transitional AT1 capital instrument" has the meaning given in section A2.3 of BPR110: Capital Definitions and "loss absorption trigger event" and "non-viability trigger event" have the meanings given in sub-section C2.2(3) of BPR120: Capital Adequacy Requirements.

1C. That, if the prudential capital buffer ratio of the banking group is more than 2.5%, the bank must limit aggregate distributions, other than discretionary payments payable to holders of Additional Tier 1 capital instruments, to no more than 50% of the bank's earnings.

For the purposes of this condition of registration,—

"prudential capital buffer ratio", "distributions", and "earnings" have the same meaning as in Subpart B2 of BPR100: Capital Adequacy;

an Additional Tier 1 capital instrument is an instrument that meets the requirements of B2.2(2)(a), (c) or (d) of BPR110: Capital Definitions;

the bank must not make any individual dividend payment contributing to aggregate distributions for a financial year until it has completed its interim financial accounts for the first six months of its financial year or its annual financial accounts for its full financial year, and must not make any such dividend payment less than six months after any previous such dividend payment.

1D. That:

(a) the bank must not include the amount of an Additional Tier 1 capital instrument or Tier 2 capital instrument issued on or after 1 July 2021 in the calculation of its capital ratios unless it has completed the notification requirements in Part B of BPR120: Capital Adequacy Process Requirements in respect of the instrument; and

(b) the bank meets the requirements of Part C of BPR120: Capital Adequacy Process Requirements in respect of regulatory capital instruments.

For the purposes of this condition of registration,—

an Additional Tier 1 capital instrument is an instrument that meets the requirements of subsection B2.2(2)(a) or (c) of BPR110: Capital Definitions;

a Tier 2 capital instrument is an instrument that meets the requirements of subsection B3.2(2)(a) or (c) of BPR110: Capital Definitions.

2. That the banking group does not conduct any non-financial activities that in aggregate are material relative to its total activities.

In this condition of registration, the meaning of "material" is based on generally accepted accounting practice.

3. That the banking group's insurance business is not greater than 1% of its total consolidated assets.

For the purposes of this condition of registration, the banking group's insurance business is the sum of the following amounts for entities in the banking group:

(a) If the business of an entity predominantly consists of insurance business and the entity is not a subsidiary of another entity in the banking group whose business predominantly consists of insurance business, the amount of the insurance business to sum is the total consolidated assets of the group headed by the entity; and

(b) If the entity conducts insurance business and its business does not predominantly consist of insurance business and the entity is not a subsidiary of another entity in the banking group whose business predominantly consists of insurance business, the amount of the insurance business to sum is the total liabilities relating to the entity's insurance business plus the equity retained by the entity to meet the solvency or financial soundness needs of its insurance business.

In determining the total amount of the banking group's insurance business—

(a) all amounts must relate to on balance sheet items only, and must comply with generally accepted accounting practice; and

(b) If products or assets of which an insurance business is comprised also contain a non-insurance component, the whole of such products or assets must be considered part of the insurance business.

For the purposes of this condition of registration,—

"insurance business" means the undertaking or assumption of liability as an insurer under a contract of insurance;

"insurer" and "contract of insurance" have the same meaning as provided in sections 6 and 7 of the Insurance (Prudential Supervision) Act 2010.

4. That the aggregate credit exposures (of a non-capital nature and net of any allowances for impairment) of the banking group to all connected persons do not exceed the rating-contingent limit outlined in the following matrix:

Credit rating of the bank <sup>1</sup>	Connected exposure limit (% of the banking group's Tier 1 capital)
AA/Aa2 and above	75
AA-/Aa3	70
A+/A1	60
A/A2	40
A-/A3	30
BBB+/Baa1 and below	15

Within the rating-contingent limit, credit exposures (of a non-capital nature and net of any allowances for impairment) to non-bank connected persons shall not exceed 15% of the banking group's Tier 1 capital.

For the purposes of this condition of registration, compliance with the rating-contingent connected exposure limit is determined in accordance with the Reserve Bank of New Zealand document entitled "Connected Exposures Policy" (BS8) dated October 2021.

5. That exposures to connected persons are not on more favourable terms (e.g. as relates to such matters as credit assessment, tenor, interest rates, amortisation schedules and requirement for collateral) than corresponding exposures to non-connected persons.

6. That the bank complies with the following corporate governance requirements:

(a) the board of the bank must have at least five directors;

(b) the majority of the board members must be non-executive directors;

<sup>1</sup> This table uses the rating scales of Standard & Poor's, Fitch Ratings and Moody's Investors Service. (Fitch Ratings' scale is identical to Standard & Poor's.)

- (c) at least half of the board members must be independent directors;
- (d) an alternate director,—
- (i) for a non-executive director must be non-executive; and
- (ii) for an independent director must be independent;
- (e) at least half of the independent directors of the bank must be ordinarily resident in New Zealand;
- (f) the chairperson of the board of the bank must be independent; and
- (g) the bank's constitution must not include any provision permitting a director, when exercising powers or performing duties as a director, to act other than in what he or she believes is the best interests of the company (i.e. the bank).

For the purposes of this condition of registration, "non-executive" and "independent" have the same meaning as in the Reserve Bank of New Zealand document entitled "Corporate Governance" (BS14) dated July 2014.

7. That no appointment of any director, chief executive officer, or executive who reports or is accountable directly to the chief executive officer, is made in respect of the bank unless:

- (a) the Reserve Bank has been supplied with a copy of the curriculum vitae of the proposed appointee; and
- (b) the Reserve Bank has advised that it has no objection to that appointment.

8. That a person must not be appointed as chairperson of the board of the bank unless:

- (a) the Reserve Bank has been supplied with a copy of the curriculum vitae of the proposed appointee; and
- (b) the Reserve Bank has advised that it has no objection to that appointment.

9. That the bank has a board audit committee, or other separate board committee covering audit matters, that meets the following requirements:

- (a) the mandate of the committee must include: ensuring the integrity of the bank's financial controls, reporting systems and internal audit standards;
- (b) the committee must have at least three members;
- (c) every member of the committee must be a non-executive director of the bank;
- (d) the majority of the members of the committee must be independent; and
- (e) the chairperson of the committee must be independent and must not be the chairperson of the bank.

For the purposes of this condition of registration, "non-executive" and "independent" have the same meaning as in the Reserve Bank of New Zealand document entitled "Corporate Governance" (BS14) dated July 2014.

10. That a substantial proportion of the bank's business is conducted in and from New Zealand.

11. That the banking group complies with the following quantitative requirements for liquidity-risk management:

- (a) the one-week mismatch ratio of the banking group is not less than zero per cent at the end of each business day;
- (b) the one-month mismatch ratio of the banking group is not less than zero per cent at the end of each business day; and

- (c) the one-year core funding ratio of the banking group is not less than 75 per cent at the end of each business day.

For the purposes of this condition of registration, the ratios identified must be calculated in accordance with the Reserve Bank of New Zealand documents entitled "Liquidity Policy" (BS13) dated May 2021 and "Liquidity Policy Annex: Liquid Assets" (BS13A) dated May 2021.

12. That the bank has an internal framework for liquidity risk management that is adequate in the bank's view for managing the bank's liquidity risk at a prudent level, and that, in particular:

- (a) is clearly documented and communicated to all those in the organisation with responsibility for managing liquidity and liquidity risk;
- (b) identifies responsibility for approval, oversight and implementation of the framework and policies for liquidity risk management;
- (c) identifies the principal methods that the bank will use for measuring, monitoring and controlling liquidity risk; and
- (d) considers the material sources of stress that the bank might face, and prepares the bank to manage stress through a contingency funding plan.

13. That no more than 10% of total assets may be beneficially owned by a SPV.

For the purposes of this condition,—

"total assets" means all assets of the banking group plus any assets held by any SPV that are not included in the banking group's assets;

"SPV" means a person—

- (a) to whom any member of the banking group has sold, assigned, or otherwise transferred any asset;
- (b) who has granted, or may grant, a security interest in its assets for the benefit of any holder of any covered bond; and
- (c) who carries on no other business except for that necessary or incidental to guarantee the obligations of any member of the banking group under a covered bond;

"covered bond" means a debt security issued by any member of the banking group, for which repayment to holders is guaranteed by a SPV, and investors retain an unsecured claim on the issuer.

14. That—

- (a) no member of the banking group may give effect to a qualifying acquisition or business combination that meets the notification threshold, and does not meet the non-objection threshold, unless:

(i) the bank has notified the Reserve Bank in writing of the intended acquisition or business combination and at least 10 working days have passed; and

(ii) at the time of notifying the Reserve Bank of the intended acquisition or business combination, the bank provided the Reserve Bank with the information required under the Reserve Bank of New Zealand Banking Supervision Handbook document "Significant Acquisitions Policy" (BS15) dated December 2011; and

- (b) no member of the banking group may give effect to a qualifying acquisition or business combination that meets the non-objection threshold unless:

(i) the bank has notified the Reserve Bank in writing of the intended acquisition or business combination;

(ii) at the time of notifying the Reserve Bank of the intended acquisition or business combination, the bank provided the Reserve Bank with the information required under the Reserve Bank of New Zealand Banking Supervision Handbook document "Significant Acquisitions Policy" (BS15) dated December 2011; and

(iii) the Reserve Bank has given the bank a notice of non-objection to the significant acquisition or business combination.

For the purposes of this condition of registration, "qualifying acquisition or business combination", "notification threshold" and "non-objection threshold" have the same meaning as in the Reserve Bank of New Zealand Banking Supervision Handbook document "Significant Acquisitions Policy" (BS15) dated December 2011.

15. That, for a loan-to-valuation measurement period ending on or after 31 October 2021, the total of the bank's qualifying new mortgage lending amount in respect of property-investment residential mortgage loans with a loan-to-valuation ratio of more than 60%, must not exceed 5% of the total of the qualifying new mortgage lending amount in respect of property-investment residential mortgage loans arising in the loan-to-valuation measurement period.

16. That, for a loan-to-valuation measurement period ending on or before 31 March 2022, the total of the bank's qualifying new mortgage lending amount in respect of non property-investment residential mortgage loans with a loan-to-valuation ratio of more than 80%, must not exceed 20% of the total of the qualifying new mortgage lending amount in respect of non property-investment residential mortgage loans arising in the loan-to-valuation measurement period.

17. That, for a loan-to-valuation measurement period ending on or after 30 April 2022, the total of the bank's qualifying new mortgage lending amount in respect of non property-investment residential mortgage loans with a loan-to-valuation ratio of more than 80%, must not exceed 10% of the total of the qualifying new mortgage lending amount in respect of non property-investment residential mortgage loans arising in the loan-to-valuation measurement period.

18. That the bank must not make a residential mortgage loan unless the terms and conditions of the loan contract or the terms and conditions for an associated mortgage require that a borrower obtain the registered bank's agreement before the borrower can grant to another person a charge over the residential property used as security for the loan.

In these conditions of registration,—

"banking group" means Bank of Baroda (New Zealand) Limited (as reporting entity) and all other entities included in the group as defined in section 6(1) of the Financial Markets Conduct Act 2013 for the purposes of Part 7 of that Act.

"generally accepted accounting practice" has the same meaning as in section 8 of the Financial Reporting Act 2013.

In these conditions of registration, the version dates of the Reserve Bank of New Zealand Banking Prudential Requirement (BPR) documents that are referred to in the capital adequacy conditions 1 to 1D, or are referred to in turn by those documents or by Banking Supervision Handbook (BS) documents, are—

residential mortgage loans", "qualifying new mortgage lending amount in respect of non property-investment residential mortgage loans", and "residential mortgage loan" have the same meaning as in the Reserve Bank of New Zealand document entitled "Framework for Restrictions on High-LVR Residential Mortgage Lending" (BS19) dated October 2021:

"loan-to-valuation measurement period" means a period of six calendar months ending on the last day of the sixth calendar month.

## 7. Pending proceedings or arbitration

As at the date of this Disclosure Statement is signed, there are no pending proceedings or arbitration concerning the Bank, whether in New Zealand or elsewhere, that may have a material adverse effect on the Bank.

## 8. Credit rating

### 8.1 Rating information

The credit rating of the Bank is as follows:

Rating Agency	Type of Rating	Current Rating	Qualifications	Rating Change in the Last 2 Years
Fitch IBCA, Inc.	Long-term Issuer Default Rating	BBB-	Outlook stable	Yes as per comments below

On 21 June 2020, Fitch Ratings has affirmed the above ratings with a change from stable to negative outlook.

On 3 December 2020 Fitch reaffirmed the rating of the Bank at BBB- with negative outlook.

बैंक ऑफ बरोडा Bank of Baroda

This Deed of Guarantees is made on 12<sup>th</sup> August, 2008  
by Bank of Baroda (Guarantor)

**Introduction**

At the request of the Bank, the Guarantor has agreed to guarantee all of the indebtedness of the Bank to the Creditors on the terms of this Deed.

**It is agreed**

**1. Interpretation**

1.1

**Definitions**

In this Deed:

Bank means Baroda (New Zealand) Limited (to be renamed Bank of Baroda (New Zealand) Limited)

Creditor means a person to whom the Bank owes indebtedness, including, for the avoidance of doubt, any depositor of the Bank; and

Guaranteed indebtedness means all indebtedness of the Bank to the Creditors.

1.2

**Construction of certain terms**

In this Deed:

an agreement includes a contract, deed, licence, undertaking and other document or legally enforceable arrangement in writing (present and future) and includes that document as amended, assigned, novated or substituted from time to time;

A business day means a day (other than a Saturday or Sunday) on which registered banks are open for general banking business in Wellington and, where payment is required in foreign currency, banks are open for business in the required place of payment;

a consent includes an approval, authorisation, exemption, licence, licence, order, permit, recording and registration;

costs incurred by a person include all commissions, charges, fees, expenses (including legal fees on a solicitor and own client basis) and taxes incurred by that person;

a guarantor means a suretyship, the economic effect of which is to assume responsibility for the indebtedness or obligations of another person;

indebtedness includes any obligation (whether present or future, secured or unsecured, joint or several, on principal, jointly or otherwise) relating to the payment of money;

the liquidation of a person includes the dissolution, administration, winding-up and bankruptcy of that person and any analogous procedure under the law of any jurisdiction in which that person is incorporated, domiciled, carries on business or has property;

2.

2.1 Headings and the table of contents are to be ignored in construing this Deed.

### Guarantee and Indemnity

#### Guarantee

2.2 The Guarantor unconditionally and irrevocably guarantees to the Creditors due payment by the Bank of the Guaranteed Indebtedness.

#### Payment

2.3 The Guarantor undertakes to the Creditors that if, for any reason, the Bank does not pay to the Creditors when due (whether by acceleration or otherwise) any Guaranteed Indebtedness, it will pay the relevant amount to each relevant Creditor immediately on receiving a written demand from the Creditor accompanied by proof of the relevant Guaranteed Indebtedness.

#### Unenforceability of obligations

As a separate and continuing undertaking, the Guarantor unconditionally and irrevocably undertakes to the Creditors that should any Guaranteed Indebtedness not be recoverable

Appendix 1: Guarantee

- (a) a defect in or lack of powers of the Bank or the Guarantor or the irregular exercise of those powers; or
- (b) a defect in or lack of authority by a person purporting to act on behalf of the Bank or the Guarantor; or
- (c) a legal or other limitation (whether under the Limitation Act 1963 or otherwise), disability or incapacity of the Bank or the Guarantor; or
- (d) a liquidation, amalgamation, change in status, dissolution or control, reconstruction or reorganisation of the Bank or the Guarantor (or the commencement of steps to effect the same),

It will, as a sole and independent obligation, pay to the Creditors on demand the amount that the Creditors would otherwise have been able to recover (on a full indemnity basis). In this clause, the expression "Guaranteed indebtedness" includes any indebtedness that would have been included in that expression but for anything referred to in this clause.

**3. Nature of guarantee obligations**

**3.1 Liability as sole principal debtor**

As between the Guarantor and the Creditors (but without affecting the obligations of the Bank) the Guarantor is liable under this Deed in relation to the Guaranteed indebtedness as if it were the sole and principal debtor. However, the Bank will be discharged from its obligations in respect of any Guaranteed indebtedness to the extent of any payment made by the Guarantor in relation to that Guaranteed indebtedness.

**3.2 No discharge**

The Guarantor is not discharged, nor are its obligations affected, by:

- (a) any time, indulgence, waiver or consent at any time given to the Bank; or
- (b) an amendment (however fundamental) to, or replacement of, any agreement; or
- (c) the liquidation, amalgamation, change in status, dissolution or control, reconstruction or reorganisation of the Bank (or the commencement of steps to effect any of these),

**4. Payments**

**4.1 Mode of payments**

Each payment to a Creditor under this Deed is to be made on the due date in immediately available freely transferable funds in the manner that the Creditor, by notice to the Guarantor, specifies from time to time.

**Payments to be free and clear**

Each payment by the Guarantor to a Creditor under this Deed is to be made:

- (a) free of any reservation or condition and

Appendix 11 Guarantee

बैंक ऑफ बड़ोदा Bank of Baroda

(b) free and clear of and without any deduction or withholding for or on account of tax or on another account, whether by way of set-off, counterclaim or otherwise (except to the extent required by law).

4.3 Reinstatement

If a payment made by the Guarantor to a Creditor pursuant to this Deed is avoided by law:

- (a) that payment will be deemed not to have discharged or affected the relevant obligation of the Guarantor; and
- (b) that Creditor and the Guarantor will be deemed to be restored to the position in which each would have been if that payment had not been made.

5. Assignment

Neither the Guarantor nor a Creditor may assign or transfer any of its rights or obligations under this Deed.

6. Notices

6.1 Addresses and references

Each notice or other communication under this Deed is to be made in writing and sent by SWIFT messaging, personal delivery or post to the addressee at the address, and marked for the attention of the person or office holder (if any), from time to time designated for the purpose by the addressee to the other party. The SWIFT code, address and relevant person or office holder of the Guarantor, and the address and relevant person or office holder of the Bank, is set out in the Schedule.

6.2 Deemed delivery

No communication will be effective until received in legible form.

7. Remedies and waivers

7.1 Exercise of rights and waivers

Time is of the essence in respect of all dates and times for compliance by the Guarantor with the Guarantor's obligations under this Deed. However, failure to exercise, and delay in exercising, a right of a Creditor under this Deed will not operate as a waiver of that right, subject to laws of limitation, nor will a single or partial exercise of a right preclude another or further exercise of that right or the exercise of another right. No waiver by a Creditor of that Creditor's rights under this Deed is effective unless it is in writing signed by that Creditor.

7.2 Remedies cumulative

The rights of the Creditors under this Deed are cumulative and not exclusive of any rights provided by law.

**8. Miscellaneous**

**8.1 Partial Invalidity**

The illegality, invalidity or unenforceability of a provision of this Deed under any law will not affect the legality, validity or enforceability of that provision under another law or the legality, validity or enforceability of another provision.

**8.2 Enforcement by Creditors**

For the purposes of the Contractable (Privy) Act 1992, the Guarantor acknowledges and accepts that its obligations under this Deed shall be enforceable by the Creditors.

**9. Governing law and Jurisdiction**

**9.1 Governing law**

This Deed is governed by and is to be construed in accordance with New Zealand law.

**9.2 In New Zealand**

Each of the parties irrevocably and unconditionally agrees that the Courts of New Zealand shall have jurisdiction to hear and determine each suit, action or proceeding (proceedings), and to settle disputes, that may arise out of or in connection with this Deed and for these purposes irrevocably submits to the jurisdiction of those courts.

**9.3 Service in New Zealand**

The Guarantor agrees that the process by which any suit, action or proceeding in New Zealand is begun may be served on it by being delivered to the Bank without prejudice to any other lawful means of service. The address and relevant person or office holder of the Bank is set out in the Schedule.

# Independent Auditor's Report

To the shareholder of Bank of Baroda (New Zealand) Limited

## Report on the audit of the Disclosure Statement

### Opinion

In our opinion, the accompanying financial statements (excluding supplementary information relating to Capital Adequacy and Regulatory Liquidity Requirements) of Bank of Baroda (New Zealand) Limited (the 'Bank') on pages 34 to 78:

- i. give a true and fair view of the Bank's financial position as at 31 March 2022 and its financial performance and cash flows for the year ended on that date; and
- ii. comply with New Zealand Generally Accepted Accounting Practice, which in this instance means New Zealand Equivalents to International Financial Reporting Standards ('NZIFRS') and International Financial Reporting Standards.

In our opinion, the supplementary information (excluding supplementary information relating to Capital Adequacy and Regulatory Liquidity Requirements) that is required to be disclosed in accordance with Schedules 4, 7, 13, 14, 15 and 17 of the Registered Bank Disclosure Statements (New Zealand Incorporated Registered Banks) Order 2014 (as amended) (the 'Order') and is included within Notes 32 and 33 of the disclosure statement:

- i. has been prepared, in all material respects, in accordance with the guidelines issued pursuant to section 78(3) of the Reserve Bank of New Zealand Act 1989 and any conditions of registration;
- ii. is in accordance with the books and records of the Bank in all material respects; and
- iii. fairly states the matters to which it relates in accordance with those Schedules

We have audited the accompanying financial statements and supplementary information (excluding supplementary information relating to Capital Adequacy and Regulatory Liquidity Requirements) which comprise:

- the statement of financial position as at 31 March 2022;
- the statements of comprehensive income, changes in equity and cash flows for the year then ended;
- notes, including a summary of significant accounting policies and other explanatory information; and
- the information that is required to be disclosed in accordance with Schedules 4, 7, 13, 14, 15 and 17 of the Order.

### Basis for Opinion

We conducted our Audit in accordance with International Standards on Auditing (New Zealand) ('ISA's (NZ)'). We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Bank in accordance with Professional and Ethical Standard 1 International Code of Ethics for Assurance Practitioners (Including International Independence Standards) (New Zealand) issued by the New Zealand Auditing and Assurance Standards Board and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) ('IESBA Code'), and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Our responsibilities under ISA (NZ) are further described in the auditor's responsibilities for the audit of the financial statements (excluding supplementary information relating to Capital Adequacy and Regulatory Liquidity Requirements) section of our report.

Our firm has also provided other services to the Bank in relation to review of the Bank's half-year Disclosure Statement and audit of the Bank's Group Reporting Package for the year ended 31 March 2022. Subject to certain restrictions, partners and employees of our firm may also deal with the Bank on normal terms within the ordinary course of trading activities of the business of the Bank. These matters have not impaired our independence as auditor of the Bank. The firm has no other relationship with, or interest in, the Bank.

### **Material uncertainty related to going concern**

We draw attention to Note 1 in the financial statements, which indicates a material uncertainty in relation to the Bank of Baroda (New Zealand) Limited's ability to continue as a going concern, given the parent entity's intention to divest or close Bank of Baroda (New Zealand) Limited's operations. As stated in Note 1, these events or conditions, along with other matters as set forth in Note 1, indicate that a material uncertainty exists that may cast significant doubt on the Bank's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

### **Materiality**

The scope of our audit was influenced by our application of materiality. Materiality helped us to determine the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements, both individually and on the financial statements as a whole. The materiality for the financial statements as a whole was set at \$501,000 determined with reference to a benchmark of the Bank's Net Assets. We chose the benchmark because, in our view, this is a key measure of the Bank's performance.

### **Key audit matters**

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements in the current period. Except for the matter described in the material uncertainty related to going concern, we summarise below those matters and our key audit procedures to address those matters in order that the shareholder as a body may better understand the process by which we arrived at our audit opinion. Our procedures were undertaken in the context of and solely for the purpose of our statutory audit opinion on the financial statements as a whole and we do not express discrete opinions on separate elements of the financial statements.

## The key audit matter

## How the matter was addressed in our audit

### Provision for credit impairment (31 March 2022: \$465,000)

Refer to Note 5 (expected credit loss allowance) to the disclosure statement.

The expected credit loss ('ECL') provision is a key audit matter owing to the financial significance of loans and advances and the high degree of judgement and complexity involved in estimating the provision.

Current economic disruption increases the level of judgement and complexity in respect of assessing the impact on the ability of borrowers to repay their loan obligations, security valuation and the underlying assumptions used to estimate these.

There is judgement involved in identifying whether a loan is individually impaired, and if recognised, further judgement with the assessment of expected future cash flows, principally derived from estimating the timing and proceeds from the future sale of the property securing the loans.

For the provision for non-impaired loans, judgement is required to incorporate a forward-looking economic view in the estimation of the collective provision and the probability of default (PD) in the future and the amount of loss given default (LGD).

Our audit procedures included:

- Testing key controls relating to the Bank's lending, credit review and loan monitoring processes, including testing the approval of new lending facilities and review of the provision for credit impairment calculation.

- Provisions for loans identified as impaired (individual provisions)

Determining high risk criteria that could indicate a loan is at higher risk of being individually impaired, which included those loans with high credit risk due to internal factors specific to borrower.

Using these high risk criteria, selecting a sample of loans for testing and performing an independent assessment of whether the loan should have a provision for impairment based on the borrowers' payment history and security valuation.

- Provision estimated for the loan portfolio as a whole (collective provisioning)

We involved our technical specialists to develop an alternative comparison ECL model using the observable industry data relating to the probability of default and loss given default. The collective provision derived from the alternative comparison ECL model was compared to the Bank's collective provision to assess if the Bank's collective provision is within an acceptable range.

- Assessing the Bank's significant accounting policies and disclosures in the financial statements against the requirements of the accounting standards.

## Other information

The Directors, on behalf of the Bank, are responsible for the other information included in the Bank's disclosure statement. Other information includes the information required to be included in the Disclosure Statement in accordance with Schedule 2 of the Order on pages 1 to 25 that accompanies the financial statements, and the supplementary information relating to Capital Adequacy and Regulatory Liquidity Requirements. Our opinion on the disclosure statement does not cover any other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the disclosure statement our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the disclosure statement or our knowledge obtained in the audit or otherwise appears materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

---

## Report on other legal and regulatory requirements

In accordance with the requirements of clauses 2(1)(d) and 2(1)(e) of Schedule 1 of the Order, we report that:

- we have obtained all the information and explanations we have required; and
- in our opinion, proper accounting records have been kept by the Bank, as far as appears from our examination of those records.

---

## Responsibilities of Directors for the financial statements and supplementary information (excluding supplementary information relating to Capital Adequacy and Regulatory Liquidity Requirements)

The Directors, on behalf of the Bank, are responsible for:

- the preparation and fair presentation of the financial statements in accordance with Clause 24 of the Order, NZIFRS and International Financial Reporting Standards;
- the preparation and fair presentation of supplementary information (excluding the supplementary information relating to Capital Adequacy and Regulatory Liquidity Requirements), in accordance with Schedules 2, 4, 7, 13, 14, 15 and 17 of the Order;
- implementing necessary internal control to enable the preparation of financial statements that are fairly presented and free from material misstatement, whether due to fraud or error; and
- assessing the ability to continue as a going concern. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate or to cease operations or have no realistic alternative but to do so.

---

## Auditor's responsibilities for the audit of the financial statements and supplementary information (excluding supplementary information relating to Capital Adequacy and Regulatory Liquidity Requirements)

Our objective is:

- to obtain reasonable assurance about whether the disclosure statement, including the financial statements prepared in accordance with Clause 24 of the Order, and supplementary information (excluding the supplementary information relating to Capital Adequacy and Regulatory Liquidity Requirements), in accordance with Schedules 4, 7, 13, 14, 15 and 17 of the Order as a whole is free from material misstatement, whether due to fraud or error; and
- to issue an independent auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISA's (NZ) will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial statements.

A further description of our responsibilities for the audit of these financial statements is located at the External Reporting Board (XRB) website at:

<http://www.xrb.govt.nz/standards-for-assurance-practitioners/auditors-responsibilities/audit-report-2/>

This description forms part of our independent auditor's report.

## **Review conclusion on the supplementary information relating to Capital Adequacy and Regulatory Liquidity Requirements**

Based on our review, nothing has come to our attention that causes us to believe that the supplementary information relating to Capital Adequacy and Regulatory Liquidity Requirements, disclosed in Notes 32 and 33 to the disclosure statement, is not, in all material respects disclosed in accordance with Schedule 9 of the Order.

We have reviewed the supplementary information relating to Capital Adequacy and Regulatory Liquidity Requirements, as disclosed in Notes 32 and 33 of the disclosure statement for the year ended 31 March 2022. The supplementary information relating to Capital Adequacy and Regulatory Liquidity Requirements comprises the information that is required to be disclosed in accordance with Schedule 9 of the Order.

---

### **Emphasis of matter**

We draw attention to the information presented in Note 32 on page 76 of the Bank's 31 March 2022 disclosure statement, which outlines the Bank's identification of error in calculating the interest rate risk capital charges previously reported to the Reserve Bank of New Zealand (the "RBNZ") during the period from 1 October 2021 to 31 March 2022. As disclosed by the Bank, the market risk capital charges were corrected as at 31 March 2022. Our conclusion is not modified in respect of this matter.

---

### **Basis for conclusion on the supplementary information relating to Capital Adequacy and Regulatory Liquidity Requirements**

A review of the supplementary information relating to Capital Adequacy and Regulatory Liquidity Requirements in accordance with NZ SRE 2410 *Review of Financial Statements Performed by the Independent Auditor of the Entity* ('NZ SRE 2410') is a limited assurance engagement. Our responsibilities under that standard are further described in the Auditor's Responsibilities for the Review of the supplementary information relating to Capital Adequacy and Regulatory Liquidity Requirements section of our report.

As the auditor of Bank of Baroda (New Zealand) Limited, NZ SRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial statements.

---

### **Responsibilities of Directors for the supplementary information relating to Capital Adequacy and Regulatory Liquidity Requirements**

The directors are responsible for the preparation of supplementary information relating to Capital Adequacy and Regulatory Liquidity Requirements that is required to be disclosed under Schedule 9 of the Order and prepared in accordance with the requirements of that Schedule and as described in Notes 32 and 33 to the disclosure statement.

---

** Auditor's responsibilities for the review of the supplementary information relating to Capital Adequacy and Regulatory Liquidity Requirements**

Our responsibility is to express a conclusion on the supplementary information relating Capital Adequacy and Regulatory Liquidity Requirements based on our review. We conducted our review in accordance with NZ SRE 2410 issued by the New Zealand External Reporting Board. As the auditor of Bank of Baroda (New Zealand) Limited, NZ SRE 2410 requires that we plan and perform the review to obtain limited assurance about whether the supplementary information relating Capital Adequacy and Regulatory Liquidity Requirements is, in all material respects disclosed in accordance with Schedule 9 of the Order.

A review of the supplementary information relating to Capital Adequacy and Regulatory Liquidity Requirements in accordance with NZ SRE 2410 is a limited assurance engagement. The auditor performs procedures, primarily consisting of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures.

The procedures performed in a review are substantially less than those performed in an audit conducted in accordance with ISA's (NZ). Accordingly, we do not express an audit opinion on the supplementary information relating to Capital Adequacy and Regulatory Liquidity Requirements disclosures.

**Use of this independent auditor's report**

This independent auditor's report is made solely to the shareholder as a body. Our work has been undertaken so that we might state to the shareholder those matters we are required to state to them in the independent auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the shareholder as a body for our work, this independent auditor's report, or any of the opinions or conclusions we have formed.

The engagement partner on the audit resulting in this independent auditor's report is John Kensington.

## 1 Statement of accounting policies

The reporting entity is Bank of Baroda (New Zealand) Limited ("the Bank" or "the Company"). The Bank is an FMC reporting entity for the purposes of the Financial Markets Conduct Act 2013 ("FMCA 2013"), registered under the Companies Act 1993 and is incorporated in New Zealand. These financial statements have been drawn up in accordance with the requirements of the Companies Act 1993, the Financial Markets Conduct Act 2013, Financial Reporting Act 2013 and the Registered Bank Disclosure Statements (New Zealand Incorporated Registered Banks) Order 2014 (as amended). They were approved for issue by the Directors on 29 June 2022. The address of its registered office is 114 Dominion Road, Auckland 1446, New Zealand. The Bank provides its products and services to retail and business customers. The Bank is a fully owned subsidiary of Bank of Baroda ("BOB"), an Indian incorporated bank.

The Bank's financial statements have been prepared in accordance with New Zealand Generally Accepted Accounting Practice ("NZ GAAP"). They comply with New Zealand equivalents to International Financial Reporting Standards ("NZ IFRS") and other applicable Financial Reporting Standards, as appropriate for profit-oriented entities. These financial statements also comply with International Financial Reporting Standards.

The Bank has considered the potential impact of financial reporting standards issued but not yet in effect, and has assessed that there is no material impact to the Bank's disclosure statement from these standards.

### Statement of compliance and basis of preparation

The financial statements have been prepared under the historical cost convention. The functional and presentation currency is the New Zealand Dollar (NZD) and the figures have been rounded to the nearest thousand, unless otherwise stated.

The financial statements have been prepared on a going concern basis in accordance with historical cost concepts.

In September 2021, the Bank's parent company, Bank of Baroda, India, as a part of rationalisation of global presence, has expressed an intention to divest or close the operations of Bank of Baroda (New Zealand) Limited.

Whilst the process has been initiated, it is in its very early stages and no decisions confirming any divestment or closure have been made.

These events or conditions indicate that there is a material uncertainty that may cast significant doubt on the Bank's long-term continuance. As a result of the material uncertainty the Bank may realise its assets and discharge its liabilities at amounts different from those recorded in the financial statements.

During the period of this process, the parent has agreed to provide necessary financial support for the operations of the Bank. As expressed in their letter of support, the parent has the willingness to provide support. The parent bank has net assets of NZD 11,614 million which shows their ability to provide support. The parent's support will continue from now on until the completion of the divestment or closure process. Consequently, the directors of the Bank consider that the use of the going concern basis of accounting remains appropriate in the preparation of these financial statements and the values assigned to assets and liabilities in the disclosure statement represent the best estimate of what they will be settled for.

### Key estimates and judgements

In preparing these financial statements, the Bank has made significant judgements, estimates and assumptions that impact on the carrying value of certain assets and liabilities, revenue and expenses as well as other information reported in the notes.

The judgements made in the process of applying the Bank's accounting policies that have the most significant effect on the amounts recognised in the financial statements, and the estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are identified below.

# Bank of Baroda (New Zealand) Limited

Notes to the financial statements  
For the year ended 31 March 2022

## *Recognition of expected credit losses ("ECL") - See note 5*

In determining ECL, management is required to exercise judgement in defining what is considered to be a significant increase in credit risk and default events.

While arriving at ECL, management judgement has been applied based on reasonable and supportable information of forward-looking economic factors commensurate with the nature of bank's portfolio of loans.

The methodology for ECL calculations remained unchanged from that applied in the Interim Financial Statements for the six-months ended 30 September 2021. The bank has reviewed the impact of COVID-19 and the various support packages while considering the ECL calculations. COVID-19 related restrictions have mostly been relaxed across the world. However there continues to be uncertainty with respect to travel related industries. Credit exposures deriving predominant income from travel, tourism, hospitality and transport and may have higher credit risk and such credit exposures continue to be in Stage Two, as defined in Note 1(h). Exposure to such loan exposures have declined by 12% and consequently the provisions to these exposures have declined by 18% as at 31 March 2022 as compared to the previous year ended 31 March 2021.

As at 31 March 2022 the Bank had allowed assistance to one customer by way of conversion of loan to interest only loan for a temporary period whose income has been affected by the economic disruption from COVID-19. Such support, by itself, would not automatically result in a significant increase in credit risk warranting movement to Stage Two. Note 5 provides details of the impact of this on the provision for expected credit losses at 31 March 2022.

In determining the provision for expected credit losses as at 31 March 2022, due to the lack of historical default experience, publicly available information was considered while applying default estimates which were also factored for negative outlook on macro-economic factors.

The probability of default, loss given default, and exposure at default assumptions which support the expected credit loss estimate are reviewed regularly in light of differences between loss estimates and actual loss experience.

## **Specific accounting policies**

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated.

### **(a) Changes in accounting policies**

There were no changes in accounting policies adopted in the preparation of these financial statements since those applied in the 31 March 2021 financial statements.

### **(b) Foreign currency transactions and balances**

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the date of the transaction or valuation where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the profit or loss.

### **(c) Revenue recognition**

Revenue is recognised to the extent that it is probable that economic benefit will flow to the Bank and that the revenue can be reliably measured. The principal sources of revenue are interest income, fees and commissions.

#### *Interest income and expense*

Financial instruments are classified in the manner described in the financial assets and liabilities sections below.

For financial instruments measured at amortised cost, interest income and expense is recognised on a time-proportion basis using the effective interest method.

#### *Banking and lending fees*

Fees and direct costs relating to loan origination, financing or restructuring and to loan commitments are deferred and amortised to interest income over the life of the loan using the effective interest method. Lending fees not directly related to the origination of a loan are recognised over the period of service.

## Bank of Baroda (New Zealand) Limited

Notes to the financial statements  
For the year ended 31 March 2022

---

### *Commissions revenue*

When commissions or similar fees are related to specific non-lending transactions or events, they are recognised in the profit or loss when the service is provided to the customer. When they are charged for service provided over a period, they are taken to other income on an accrual basis as the service is provided.

### *Net foreign exchange gains*

Net foreign exchange gains represent the net amount of foreign exchange gains and losses recognised during the period.

## (d) Financial assets

### *Classification of financial assets*

The Bank's financial assets include cash and cash equivalents, balances due from related parties, loans and advances, other financial assets. The Bank classifies its financial assets as subsequently measured at amortised cost, based on both the business model for managing the financial assets and the contractual

A financial asset is classified as measured at amortised cost only if both the following conditions are met:

- It is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset represent contractual cash flows that are solely payments of principal and interest.

### *Recognition and measurement*

Regular purchases and sales of financial assets were recognised on the trade-date - the date on which the Bank commits to purchase or sell the asset. Financial assets are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Bank has transferred substantially all risks and rewards of ownership.

## (e) Financial liabilities

Financial liabilities are recognised when an obligation arises and derecognised when it is discharged, cancelled or expired. Financial liabilities are initially recognised at fair value less transaction costs, except where they are designated at fair value, in which case transaction costs are expensed as incurred.

The Bank's financial liabilities include balances due to related parties, deposit and other borrowings, and other liabilities. Deposits from customers cover all forms of funding, and include transactional and savings accounts, term deposits and credit balances on cards. Other liabilities include the accrual of interest coupons and fees payable.

The Bank classified its financial liabilities as subsequently measured at amortised cost, as it has not held for trading or derivative financial liabilities.

## (f) Derivative financial instruments and hedge accounting

In both the current and preceding period, the Bank has not entered into any derivative financial instruments and does not apply hedge accounting to any transactions.

# Bank of Baroda (New Zealand) Limited

Notes to the financial statements  
For the year ended 31 March 2022

## (g) Expected credit losses

The Bank applies a three stage approach to measuring expected credit losses (ECL) on debt instruments accounted for at amortised cost. Such assets may move through the following three stages based on their change in credit quality since their initial recognition:

### *Stage 1: 12-months ECL (Stage 1)*

For exposures where there has not been a significant increase in credit risk since initial recognition and that are not credit impaired upon origination, the portion of the lifetime ECL associated with the probability of default events occurring within the next 12 months is recognised.

### *Stage 2: Lifetime ECL - not credit impaired (Stage 2)*

For credit exposures where there has been a significant increase in credit risk since initial recognition, but that are not credit impaired, a lifetime ECL is recognised. Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument.

### *Stage 3: Lifetime ECL - credit impaired (Stage 3)*

Financial assets are assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset have occurred. For financial assets that have become credit impaired, a lifetime ECL is recognised and interest revenue is calculated by applying the effective interest rate to the amortised cost (net of provision) rather than the gross carrying amount.

### *Assessment of significant increases in credit risk*

At each reporting date, the Bank assesses whether there has been significant increase in credit risk since initial recognition by comparing the risk of default occurring over the expected life between that of the reporting date to that of the date of initial recognition.

The Bank assesses whether the credit risk on a financial asset has increased significantly on an individual and collective basis. For the purposes of collective evaluation, financial assets are grouped on the basis of shared credit risk characteristics, taking into account instrument type, internal credit risk rating, date of initial recognition, remaining term to maturity, industry, geographical location of the borrower and other relevant factors.

Regardless of other changes since the origination of the financial asset, it will be considered to have had a significant increase in credit risk where it is more than 30 days past due.

### *Subsequent improvement in credit quality*

If, in a subsequent reporting period, the credit quality improves and reverses any previously assessed significant increase in credit risk since origination, then the provision for credit losses reverts from full lifetime ECL to 12-months ECL.

### *Measurement of expected credit losses*

The estimated amount of ECL is measured as the probability-weighted present value of all cash shortfalls over the expected life of the financial asset discounted at its original effective interest rate. The cash shortfall is the difference between all contractual cash flows that are due to the Bank and all the cash flows that the Bank expects to receive. The amount of the loss is recognised using a provision for credit loss allowance.

The Bank considers its historical loss experience and adjusts this for current observable data. In addition, the Bank uses reasonable and supportable forecasts of future economic conditions including experienced judgement to estimate the amount of an expected credit loss. The Bank assesses a range of macroeconomic factors which include, but are not limited to, unemployment, interest rates, gross domestic product, inflation and property prices, and requires an evaluation of both the current and forecast direction of the economic cycle. Incorporating forward-looking information increases the level of judgement as to how changes in these macroeconomic factors will affect ECL. The methodology and assumptions, including any forecasts of future economic conditions are reviewed regularly.

### *Collective assessment of credit loss allowances*

For collectively assessed provisions, expected credit losses are estimated based on the probability of default, loss given default, and the anticipated exposure at default.

# Bank of Baroda (New Zealand) Limited

Notes to the financial statements  
For the year ended 31 March 2022

---

## (g) Expected credit losses (continued)

### *The probability of default ("PD")*

This estimates the likelihood of default occurring (either over the lifetime of the financial instrument, or within 12 months from reporting period).

### *Exposure at default ("EAD")*

An estimate of the exposure at a future default date, taking into account expected changes in the exposure after reporting date – for instance due to available borrowing facilities.

### *Loss given default ("LGD")*

This is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the Banks would expect to receive, including cash flows expected from collateral and other credit enhancements.

For credit-impaired financial assets that are assessed on an individual basis, a discounted cash flow calculation will be performed and consider multiple cash flow scenarios. However, no loans have been recognised in this category since adoption of NZ IFRS 9.

Allowance is also made for the expected credit losses arising from undrawn loan commitments available to borrowers, which is recognised within other liabilities.

### *Default*

In defining default for the purposes of determining the risk of a default occurring, the Bank applies a default definition consistent with the definition used for internal credit risk management purposes for the relevant financial instrument and considers qualitative indicators when appropriate. The Bank applies a presumption that default does not occur later than when a financial asset is 90 days past due, or where it operates outside of agreed facility limits for a period of more than 90 days.

### *Write-off of financial assets*

Financial assets (and the related impairment allowances) will be written off, either partially or in full, when there is no realistic prospect of recovery. Where loans are secured, this is generally after receipt of any proceeds from the realisation of security. No loans have been written off during the current reporting period.

### *Purchased or originated credit impaired assets*

The Bank has no purchased or originated credit impaired assets during the current reporting period.

## (h) Asset quality disclosures

### *Restructured assets*

A restructured asset is any credit exposure for which:

- the original terms have been changed to grant the counterparty a concession that would not otherwise have been available, due to the counterparty's difficulties in complying with the original terms;
- the revised terms of the facility are not comparable with the terms of new facilities with comparable risks; and
- the yield on the asset following restructuring is equal to or greater than, the Bank's average cost of funds, or that a loss is not otherwise expected to be incurred.

Assets acquired through the enforcement of security are those real estate and other assets acquired in full or partial satisfaction of a debt.

### *Past due assets*

A financial asset is disclosed as a past due asset where a counterparty has failed to make a payment when contractually due, and which is not an impaired asset.

### *Assets under administration*

An asset under administration is any credit exposure which is not an impaired asset or a past due asset, but which is to a counterparty:

- who is in receivership, liquidation, bankruptcy, statutory management or any form of administration in New Zealand; or
- who is in any other equivalent form of voluntary or involuntary administration in an overseas jurisdiction.

## (l) Taxation

Income tax on the net profit for the period comprises current and deferred tax.

Current tax is the expected tax payable on the taxable income for the period, using tax rates enacted or substantively enacted as at balance date after taking advantage of all allowable deductions under current taxation legislation and any adjustment to tax payable in respect of previous financial years.

A deferred tax balance is recognised in respect of all temporary differences arising between the carrying amounts of assets and liabilities for financial reporting purposes, and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at balance date.

A deferred taxation asset is recognised only to the extent that it is probable (i.e. more likely than not) that a future taxable profit will be available against which the asset can be utilised.

## (j) Provisions

A provision is recognised in the balance sheet when: the Bank has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and a reliable estimate can be made of the amount of the obligation.

## (k) Contingent liabilities and credit commitments

The Bank is involved in a range of transactions that give rise to contingent and/or future liabilities. The Bank discloses a contingent liability when it has possible obligation arising from past events that will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the Bank's control. A contingent liability is disclosed when a present obligation is not recognised because it is not probable that an outflow of resources will be required to settle an obligation, or the amount of the obligation cannot be measured with sufficient reliability.

The Bank issues commitments to extend credit, letters of credit, guarantees and other credit facilities. These financial instruments attract fees in line with market prices for similar arrangements. They are not sold or traded. The items generally do not involve cash payments other than in the event of default. The fee pricing is set as part of the broader customer credit process and reflects the probability of default. They are disclosed as contingent liabilities at their face value. The fair values of guarantees are not considered to be material.

## (l) Leases

Lease liabilities include the net present value of the following lease payments over the lease term:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable
- variable lease payments that are based on an index or a rate to the extent that the variable amount is known.

Variable lease payments that are not based on an index or rate are excluded from lease liabilities, and recognised when they become due. There are no residual value guarantees, purchase options or termination penalties relevant to the company's lease obligations.

Extension options, exercisable by the Bank, are included in a number of property leases. Where it is considered reasonably certain these will be exercised they are included within the lease term, which is the case for all such options in the current reporting period. Management considers all facts and circumstances that create an economic incentive to exercise an extension option. The assessment will be reviewed if a significant event or a significant change in circumstances occurs which affects this assessment and that is within the control of the Bank.

The lease payments, over the lease term, are discounted using an estimate of the Bank's incremental borrowing rate for an equivalent asset.

Right-of-use assets arising from lease arrangements are measured at cost comprising the following:

- the amount of the initial measurement of lease liability; and
- any restoration costs (such as make good provisions).

# Bank of Baroda (New Zealand) Limited

Notes to the financial statements  
For the year ended 31 March 2022

## (l) Leases (continued)

When lease payments are made these reduce the related lease liability; a finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term, on a straight-line basis.

## (m) Dividends

Dividends on ordinary shares are recognised in equity in the period in which they are approved by the Bank's shareholders. Dividends for the year that are declared after the balance date are dealt with in the subsequent events note.

## (n) Cash and cash equivalents

Cash and cash equivalents comprise cash, cash at bank, cash in transit and call deposits due from/to other banks, all of which are used in the day-to-day cash management of the Bank.

## (o) Goods and Services Tax (GST)

The financial statements have been prepared so that all components are stated exclusive of GST except where the GST is not recoverable from the IRD. In these circumstances the GST component is recognised as part of the underlying item. Trade and other receivables and payables are stated GST inclusive. The net amount of GST recoverable from or payable to the IRD is included within these categories. Cash flows in the statement of cash flows include GST.

### Impact of changes in gross carrying amount on ECL

There have been no significant changes in the composition of the gross carrying amount of loans and advances during the year to 31 March 2022, with a reduction in corporate lending of \$3.2m offset by increased residential mortgage lending of \$1.0m. Repayments have reduced the level of expected credit losses for those recognising lifetime expected credit losses.

### 10 Leases

#### Nature and extent of lease activities

The Bank leases properties for operational purposes as its branches. These leases contain a variety of lease terms which typically include rent review (fixed, market and/or CPI) and extension options. Further variable costs due under the lease agreements and expensed in the current period amounted to \$43,000 (2021: \$44,000).

In addition, there are lease costs recognised on a straight-line basis in relation to short-term leases of residential properties, provided as accommodation to certain Bank staff members. Costs amounting to \$162,000 (2021: \$196,000) were expensed during the period. These have been disclosed as employee benefits within note 4.

Total cash outflows related to leases during the period under review amounted to \$536,000 (2021: \$630,000).

#### Right of use to leased assets

The following amounts are included in the balance sheet in relation to right of use assets held under lease arrangements:

Right of use assets	As at	As at
	31 March 2022	31 March 2021

### 27 Sensitivity analysis

The table below summarise the post-tax sensitivity of financial assets and liabilities to changes in interest rate and currency risks. The carrying value of the assets and liabilities were used as the basis for the analysis and financial modelling was used to determine the impact on those values of changes in each risk scenario. The sensitivity analysis is performed based on the reporting of interest risk and foreign exchange rates.

### Fair value estimation

For financial instruments not presented in the Bank's balance sheet at their fair value, fair value is estimated as follows:

#### Cash and cash equivalents

For cash assets, the carrying amount is equivalent to the fair value as assets are short term in nature.

#### Loans and advances

For variable rate loans and advances, the carrying amount is a reasonable estimate of fair value. For fixed rate loans and advances, fair values have been estimated using a discounted cash flow model with reference to market interest rates and rates of estimated credit losses.

#### Other financial assets

For other financial assets, the carrying amount is approximately equal to the fair value.

#### Deposits by customers

For fixed term deposits by customers, fair values have been estimated using a discounted cash flow model with reference to market interest rates. For other deposits by customers, such as call and variable rate deposits, the carrying amount is a reasonable estimate of fair value.

#### Due to/from related parties

For due to/from related parties, carrying amounts in the balance sheet are a reasonable estimate of fair value for these assets.

#### Other financial liabilities

For other financial liabilities, the carrying amount is equivalent to the fair value.

## 28 Fair values of financial instruments (continued)

### Fair value estimation (continued)

Level 1 inputs are quoted prices in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2 valuation estimates have inputs that other than quoted market prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 relates to financial instruments valued using valuation techniques where one or more significant inputs are unobservable.

## 29 Credit exposure concentrations

### Credit exposures to individual counterparties

Credit exposure concentrations are disclosed on the basis of actual exposures and gross of set-offs. Peak end-of-day aggregate credit exposures have been calculated using the Bank's Tier One Capital at the end of the quarter.

The number of individual counterparties, excluding connected persons, where the period end and peak end-of-day aggregate actual credit exposures, net of individual credit loss allowances, equalled or exceeded 10% of the Bank's common equity tier one capital was:

	As at 31 March 2022	Peak end of the day between the previous Disclosure Statement and 31 March 2022	As at 31 March 2021	Peak end of the day between the previous Disclosure Statement and 31 March 2021
<b>Number of counterparties without a credit rating:</b>

- Representing 15-20% of common equity tier one capital	-	1	-	-
- Representing 20-25% of common equity tier one capital	-	-	1	1
- Representing 25-30% of common equity tier one capital	-	-	1	1
- Representing 30-35% of common equity tier one capital	1	1	-	-

Credit exposures to individual counterparties (not being members of a group of closely related counterparties) and to groups of closely related counterparties exclude exposures to connected persons, to the central government or central bank of any country with a long-term credit rating of A- or A3 or above, or its equivalent, or to any supranational or quasi-sovereign agency with a long-term credit rating of A- or A3 or above, or its equivalent. These calculations relate only to exposures held in the financial records of the Bank and were calculated net of individually assessed provisions.

### Credit exposures to bank counterparties

The number of bank counterparties, excluding connected persons, where the period end and peak end-of-day aggregate actual credit exposures, net of individual credit loss allowances, equalled or exceeded 10% of the Bank's common equity tier one capital was:

### Credit exposures to connected persons

The Reserve Bank of New Zealand defines connected persons to be other members of the BOB Group and Directors of the Bank. Credit exposures to connected persons are based on actual credit exposures rather than internal limits. The information on credit exposure to connected persons has been derived in accordance with the Reserve Bank of New Zealand's Connected Exposures Policy (BS8). Peak end-of-day aggregate credit exposures to connected persons expressed as a percentage of Tier One Capital of the Banking Group has been derived by determining the maximum end-of-day aggregate amount of credit exposure over the relevant twelve month period and then dividing that amount by the Bank's Tier One Capital as at the end of the period. The rating-contingent limit, which is applicable to the Bank as at balance date, is 15%. There have been no changes to the limit during the period. Within the rating-contingent limit there is a sub-limit of 15%, which applies to non-bank connected persons. The aggregate credit exposures below have been calculated on a gross basis, net of individual credit loss allowances and exclude advances to connected persons of a capital nature. There are no individual impairment credit allowances against credit exposures to connected persons, nor are there any contingent exposures arising from risk lay-off arrangements to connected persons as at 31 March 2022.

## 30 Securitisation, funds, management, other fiduciary activities and the marketing and distribution of insurance products

As at balance date, the Bank is not involved in:

- The establishment, marketing, or sponsorship of trust, custodial, funds management and other fiduciary activities; or
- The origination of securitised assets; or
- The marketing or servicing of securitisation schemes; or
- The marketing and distribution of insurance products or conducting business.

## 31 Risk management policies

### 31.1 Credit risk

Credit risk is the risk of loss arising as a result of the diminution in credit quality of the borrower or counterparty and the risk that the borrower or counterparty will default on contractual repayments under an advance.

#### Credit risk management

The Bank is responsible for implementing and operating within established risk management frameworks and policies and has adapted the Bank's credit risk policy to the Bank's customer and product set.

The Bank has a Credit Committee that specifically oversees and co-ordinates the Bank's credit risk management functions. The Credit Committee has primary responsibility for identifying, measuring and monitoring the Bank's exposure to credit risk. The Credit Committee reports to the Board on credit risk on a quarterly basis.

The Bank has its own credit and lending policy which has been set by the Credit Committee and approved by the Board. Bank officers seek Credit Committee approval before deviating from any lending guideline or policy. Credit approval authorities have been delegated by the Board to lending officers, senior executives of the Bank and the Credit Committee, compliance with these policies is monitored by the Credit Committee and reported to the Board.

### 31.1 Credit risk (continued)

The Credit Risk Management Committee of the Bank reviews the aspects related to ECL measurement on a quarterly basis. Senior Management of the Bank reviews the ECL Calculation on a monthly basis.

In Issuing credit approval, the Credit Committee takes into account the borrower's credit rating, the type of lending (including margins on advances and the pricing of loans), the security offered, the Bank's single and group exposures (with reference to the Bank's credit exposure ceilings) and the Bank's exposure to capital markets.

The Bank has two key systems for controlling credit risk: credit rating models and credit exposure ceilings.

#### Credit rating models

The Bank assesses risk at the time of appraisal of the loan using its rating model for various types of borrowers. A business portfolio is assessed on a risk rated basis and a consumer portfolio on a scoring basis.

#### Gross loan exposures by internal rating

Internal rating as at 31 March 2022	Gross loan	Undrawn facility	Performance
	advances	available to	guarantees
	\$000's	borrower	\$000's

Internal ratings measure the borrower's credit worthiness across various parameters such as their performance, financial strength, collateral coverage, value of the account, industry performance and market scenario. In the above, AAA ratings represent the strongest rating.

Loans and advances not scored primarily include those which are secured by bank deposits held either by Bank of Baroda (New Zealand) Limited or its parent entity, Bank of Baroda (India).

## 31 Risk management policies (continued)

### 31.1 Credit risk (continued)

#### Credit exposure ceilings

As a means of avoiding concentration of credit risk, the Bank sets ceilings in relation to single/group borrowers, unsecured borrowers and with respect to each industry sector.

#### Credit risk mitigation and collateral

The nature of collateral held for each type of financial asset differs. Cash and cash equivalents are considered zero risk assets and do not have collateral. Amounts due from other financial institutions and related parties are also relatively low risk exposures and are not collateralised.

The Bank uses a variety of techniques to reduce the credit risk arising from its loans and advances. Enforceable legal documentation has established the Bank's direct, irrevocable and unconditional recourse to any collateral, security or other credit enhancements provided.

Housing and other loans for consumer purposes may be secured, partially secured or unsecured depending on the product. Security is typically taken by a fixed and/or floating charge over property, business assets, or other assets. Other forms of credit protection may also be sought or taken out if warranted, such as guarantees from sovereign entities or authorised deposit-taking institutions and overseas banks.

The estimated realisable value of collateral held in support of loans is based on a combination of:

- Formal valuations currently held for such collateral; and
- Management's assessment of the estimated realisable value of all collateral held.

This also takes into account relevant knowledge available to management at the time. Updated valuations are obtained when appropriate. Refer to note 32 for further information.

There is no significant changes in the quality of collateral or credit enhancements held as a result of changes in economic environment in the current period.

Creditworthy customers may also enter into formal agreements with the Bank, permitting both the Bank and the customer to set-off gross credit and debt balances in their nominated accounts. Financial assets subject to offsetting, enforceable master netting arrangements and similar agreements are below:

### 31.2 Market risk

Market risk is the risk that exposure to price movements in financial instruments, arising as a result of changes in market variables, will result in a loss suffered by the Bank. The Bank has an Asset and Liability Committee that is responsible for, among other things, identifying, measuring and monitoring the Bank's exposure to market risk. The Asset and Liability Committee meets on a monthly basis and receives guidance and technical support from staff in the BOB head office. The relevant process for each category of market risk is as follows:

#### Interest rate risk

The Bank undertakes interest rate sensitivity gap analysis on a quarterly basis as a means of monitoring interest rate risk. Short term interest rate risk is calculated using the Earnings at Risk tool. The Bank ensures that the tolerance limits in respect of gaps for contractual repricing maturity time buckets are not breached.

#### Foreign exchange risk

The Bank undertakes analysis to ensure there are no material open foreign exchange positions through ensuring foreign exchange deposits are matched by corresponding foreign exchange balances held with financial institutions.

#### Equity risk

The Bank does not have any equity risk exposure.

### 31.3 Liquidity risk

Liquidity risk occurs when an institution is unable to fulfil its commitment in the time when the commitment falls due. The Asset and Liability Committee is responsible for identifying, measuring and monitoring liquidity risk affecting the Bank, and compliance with the RBNZ's liquidity requirements.

To ensure that adequate liquidity is maintained consistently, the Bank ensures that, in the time buckets of 1 day, 2 to 7 days, 8 to 14 days and 15 to 30 days, the cumulative negative liquidity gap should not exceed 5, 10, 15 and 20 percent of cash flows in the respective periods. The Bank reviews the liquidity position on a daily basis to ensure that the negative liquidity gap does not exceed the tolerance limit in the first four time buckets. In addition, the Bank prepares monthly maturity gap reports and liquidity assessment reports to facilitate an appropriately liquid combination of assets and liabilities.

Liquidity risk is measured by flow approach on a monthly basis through Structural Liquidity Gap reports. Dynamic Gap reports, which, measure liquidity risk on a dynamic basis, are also prepared monthly.

## 31 Risk management policies (continued)

### 31.4 Operational risk

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events.

The Bank's senior management is responsible for implementing the operational risk management initiatives formulated by the Board. The Bank's senior management may make recommendations to the Board on strategies that may improve the Bank's operational risk profile.

### 31.5 Capital adequacy

The Board and senior management undertake capital planning, in accordance with the Bank's internal capital adequacy assessment policy. As part of the capital planning process, the Board reviews:

- The current regulatory capital requirements of the Bank;
- The targeted and sustainable capital in terms of business strategy and risk appetite; and
- Future capital planning (with a three year outlook).

The capital plan is revised on an annual basis or more regularly, if necessary, to meet the Bank's obligations under Basel III. For further information see note 32.

### 31.6 Reviews of Bank's risk management systems

Bank's risk management policy was reviewed on 26 February 2021 and is valid for two years from that date. No external reviews of this policy have been conducted.

### 31.7 Internal audit function

The Bank utilises services of a chartered accounting firm to carry out internal audit functions as a control measure to enable senior management of the Bank to monitor and review the Bank on an ongoing basis. The Bank is subject to the following internal audit measures:

- A monthly compliance review is undertaken by senior management of the Bank. The purpose of this review is to check and confirm constant and concurrent compliance with all systems and procedures by the Bank; and
- Internal audit carried out by a firm of chartered accountants appointed by Board from time to time.

### Audit committee of the Board

The Bank, in accordance with the fundamentals of corporate governance and in pursuance of the directives of the Reserve Bank of New Zealand, has an Audit Committee of the Board comprising of three directors. A non-executive independent director who is a chartered accountant is the chairman of the committee.

During the year, the Audit Committee of the Board met 4 times.

The main functions of the Audit Committee of the Board are to assess and review the financial reporting system of the Bank to ensure that the financial statements are correct, sufficient and credible. It reviews and recommends with Bank management the half-year/annual financial statements before their submission to the board of directors.

The Audit Committee of the Board provides directions and oversees the operations of total audit functions of the bank, including the organisation, operation and quality control of internal audit and inspection within the Bank and follow up on the statutory/external audit of the Bank.

The Audit Committee of the Board also reviews the adequacy of internal control systems and discussions with the internal auditors/inspectors on any significant finding and follow up action. Further, it reviews the financing and risk management policies of the Bank.

## 32 Capital adequacy

The Bank has 40,000,000 fully paid up ordinary shares (Tier one capital) issued at NZ \$1.00 per share on 22 May 2008 (25,000,000 shares) and 20 April 2009 (15,000,000 shares).

BOB is the sole shareholder. Each share confers on the holder the right to:

- one vote on a poll at a meeting of the shareholders on any resolution to:
  - appoint or remove a Director or auditor; or
  - alter the Bank's constitution; or
  - approve a major transaction; or
  - approve an amalgamation under section 221 of the Companies Act 1993; or
  - put the Bank into liquidation;
- a proportionate share in dividends authorised by the Board; and
- a proportionate share in the distribution of the surplus assets of the Bank.

### Other classes of capital instrument

The Bank does not have any other classes of capital instruments in its capital structure.

Regulatory capital adequacy ratios are calculated by expressing capital as a percentage of risk weighted exposures. As a condition of registration, the Bank must comply with the following minimum capital requirements set by the RBNZ:

- Total regulatory capital must not be less than 8% of risk weighted exposures.
- Tier One Capital must not be less than 6% of risk weighted exposures.
- The Common Equity Tier One Capital must not be less than 4.5% of risk weighted exposures.
- Capital must not be less than NZ\$30 million.

The capital adequacy tables set out below summarise the composition of regulatory capital and capital adequacy ratios as at and for the year ended 31 March 2022. The Bank was registered on 1 September 2009 and from the date of registration to 31 March 2022; the Bank has complied with both regulatory and internal capital adequacy requirements.

The Bank has considered other material risks not included below and whether to allocate any capital to cover these risks and concluded that these risks are not significant and have therefore not allocated any capital to cover them.

A review of the Bank's market risk exposures identified errors in calculating the interest rate risk capital charges in accordance with the Reserve Bank requirements as outlined in the Banking Prudential Requirements (BPRs), in particular BPR140. The Bank corrected the error for the interest rate risk capital charge as at 31 March 2022. For the period from 1 October 2021 to 31 March 2022, the Bank did not apply the correct methodology under BPR 140 for market risk exposures as per Reserve Bank requirements.

As at 31 March 2022 Bank of Baroda (NZ) Limited maintains a buffer ratio above the capital requirement of 53.24%. This correction of this error did not materially alter the Bank's position of maintaining adequate capital levels and the Bank continued to hold above the required capital levels for a Registered Bank in New Zealand.

#### Capital adequacy of ultimate parent bank

The ultimate parent bank of Bank of Baroda (New Zealand) Limited is BOB.

BOB is required by the Reserve Bank of India to hold minimum capital at least equal to that specified under the Basel III. BOB is using the standardised method for calculation of Capital Adequacy. This information is made available to users via the BOB website ([www.bankofbaroda.com](http://www.bankofbaroda.com)).

As per latest available data at 31 March 2022, BOB's Tier One Capital was 13.89% of total risk-weighted assets and total capital was 16.33% of total risk-weighted assets (31 March 2021: Tier One Capital was 11.80% of total risk-weighted assets and total capital was 15.74% of total risk-weighted assets). BOB's capital ratios during the year ended 31 March 2022 and 31 March 2021 exceeded the Reserve Bank of India's minimum capital adequacy requirements.
