Macro developments

- Total GST collections eased to Rs 864bn from Rs 874bn in Jun'20, registering a 12% YoY decline. The dip was on account of lower cess and IGST collections. CGST on the other hand rose by 57.3% (YoY) to Rs 379bn versus Rs 302bn in Jun'20, while SGST was at Rs 475bn (17.4%) versus Rs 400bn in Jun'20. On FYTD basis total collections stand at Rs 3.3tn versus Rs 4tn in FYTD20.
- India's manufacturing PMI print rose for the first time since Mar'20 above the 50-mark at 52 in Aug'20 from 46 in Jul'20. This was led by expansion in new orders and output amidst reopening of the economy and pickup in domestic demand. Input costs remained elevated at 21-month high. Employment scenario remained bleak.
- Manufacturing activity improved globally in Aug'20 as most economies eased restrictions. Manufacturing PMI in Germany rose to 52.2 from 51 in Jul'20, Japan's PMI also improved to 47.2 from 45.2. US ISM manufacturing index rose to its highest since Nov'18 to 56 from 54.2 in Jul'20 led by improvement in new orders. However, Euro Zone manufacturing PMI fell marginally to 51.7 from 51.8 in Jul'20.
