

## MACRO DAILY

20 August 2020

### Macro developments

- RBI reported that currency in circulation (CIC) increased by Rs 56bn and stood at Rs 26.9tn for the week ending 14 Aug 2020. Reserve money rose by 14.4% on a YoY basis, compared with 13.6% a year ago. On a FYTD basis, reserve money increased by 5.7% as against 1% last year.
- US Fed minutes highlighted the commitment to maintain ultra-accommodative monetary policy to support the economy. FOMC members also backed away from any guidance shift in their upcoming Sep'20 meeting. On the state of the economy, they noted some recent optimism in few macro indicators. However, the path of the recovery would depend on containment of the virus.
- Euro Area CPI rose by 0.4% in Jul'20 from 0.3% in Jun'20. Core CPI showed sharper improvement at 1.2% versus 0.8% in Jun'20. This was driven by higher prices of both non-industrial goods and services, each rising by 0.4%. CPI in UK too edged up to 1% in Jul'20 from 0.6% in Jun'20 as lockdown restrictions eased. Prices of clothing and footwear contributed most to the gains.
