### Macro developments

- As per news reports, Government of India is expected to announce another round of fiscal stimulus around the festive season. The new set of measures could include focus towards infrastructure sector, special intervention towards tourism and hospitality sector and the extension of the production-linked incentive (PLI) scheme for other sectors. Special attention will be given to tier-1 to tier-4 cities in order to generate substantial employment.
- Ifo business climate index for Germany fell to 92.7 in Oct'20 from 93.0 in Sep'20. The higher than estimated decline (est. 93) was due to rising Covid-19 cases which affected business morale. Ifo expects GDP growth at 2.1% in Q4CY20, but a second lockdown is a potential risk. Further, rising cases in other European countries will also dampen exports.
- China's industrial profit growth eased to 10.1% in Sep'20 from 19.1% increase in Aug'20. This is in line with slowdown seen in PPI inflation. On CYTD basis, profit growth fell by only 2.4%, compared with 4.4% decline registered in Jan-Aug'20. This improvement was driven by auto manufacturing and non-ferrous/ferrous metal smelting and processing.
