### Macro developments

- News reports suggest that the government is considering reducing the requirement and number of days for starting a new business from 10 process and 18 days presently, to 5 process and 5 days. Instead of multiple forms, only two web-based forms- 'spice plus' and 'agile pro' will be needed. This will help improve India's ranking in ease of starting a business category (136 out of 190) in the World Bank Ease of Doing Business.
- China's PPI fell by (-) 0.5% in Dec'19 vs (-) 1.4% in Nov'19, led by manufactured goods (-1.3% vs -2.2%). Marginal easing was driven by higher prices of coal and petroleum. PPI in CY19 rose by 0.3% vs 3.5% in CY18. Separately, CPI rose by 4.5% in Dec'19, unchanged from Nov'19, taking CY19 average to 2.9%. Elevated prices are driven by food inflation (17.4%), particularly pork (97%). Core inflation remains steady at 1.4%.
- Germany's industrial production surprised positively to rise by 1.1% in Nov'19 (est: 0.8%) vs (-) 1% in Oct'19 on MoM basis. This was driven by capital goods (2.4% vs -4.2%). Separately, exports declined to (-) 2.3% in Nov'19 from 1.5% in Oct'19 on a MoM basis. Imports too declined by (-) 1.6% vs (-) 0.1% in Oct'19.
